Brisas del Mar - Elegant Living with Panoramic Golf and Mountain Views

Brisas del Mar - Ref. 20271

Price from: 760.000 € Price to: 940.000 €

Introducing Brisas del Mar, an exclusive boutique development of ten sophisticated villas offering breathtaking views of the sea, golf course, and mountains. This carefully curated collection includes four-bedroom residences with either three or four bathrooms, one or two guest toilets, and versatile spaces that can serve as a dedicated office or laundry room.

Each villa has been thoughtfully designed to blend open-plan interiors with expansive terraces, inviting abundant natural light and stunning panoramic views. Corner villas feature private gardens with saline chlorination pools, while central villas enjoy private rooftop pools, creating an elevated oasis.

The architecture of Brisas del Mar harmonises three essential materials to create a distinctive yet timeless look. Crisp white façades evoke a sense of seaside living, complemented by dark grey stone for added depth, while warm, wood-effect aluminium detailing infuses a welcoming atmosphere. The design is as practical as it is beautiful, with materials chosen for minimal maintenance and resilience, ensuring each villa remains an elegant part of its natural surroundings.

Quality and sustainability are at the heart of Brisas del Mar, with each home constructed using premium materials and meticulous attention to detail. Centralised aerothermal systems provide efficient hot water, heating, and cooling, while underfloor heating delivers comfort year-round. Each villa includes spacious terraces, private parking, and solariums with spectacular views.
