

San Pedro de Alcántara

New Build Apartments, The Grove, San Pedro

The Grove - Ref. 29214

Price from: 595.200 €

New build 1 to 4 bedroom apartments for sale at The Grove San Pedro de Alcántara, with rooftop skypool, indoor and outdoor pools, spa and gym in Marbella West. The Grove is an off-plan residential complex of 139 homes designed around a five-star resort lifestyle, with interiors by Italian designer Gianfranco Ferré and a Mediterranean palette of sand, light stone and wood finishes. 53 units are currently available across the 1, 2, 3 and 4 bedroom layouts.

The complex is built around a landscaped garden setting designed to feel private and contained, with a gated perimeter and dedicated zones for both adults and children. Residents have access to an outdoor swimming pool and a separate indoor heated pool, allowing year-round use. A fully equipped gym and complete spa are housed within the wellness facilities, while the children's area provides a safe, supervised space for families.

The rooftop is the centrepiece of the amenity offer. A rooftop lounge with a dedicated yoga zone runs alongside an exclusive skypool, designed as a quiet adult-oriented space with views across the surrounding area. Inside the apartments, balanced layouts, large windows and a soft Mediterranean material palette create bright, calm interiors. The Gianfranco Ferré interior design pairs sand, light stone and wood finishes with an architectural expression in line with the standard of leading villas and buildings on the Costa del Sol.

Set in San Pedro de Alcántara, the development sits within one of Marbella West's most active growth corridors, six minutes by car from Puerto Banús and seventeen minutes from Marbella old town. Málaga Airport is a 44-minute drive (63 km). Laude San Pedro International School is a four-minute drive, with Colegio San José six minutes away and Svenska Skolan Marbella eight minutes. HC Marbella private hospital is on the doorstep, and Real Club de Golf Guadalmina and La Quinta Golf are within seven minutes by car. The beach at Playa de San Pedro de Alcántara is a six-minute drive. San Pedro itself has emerged as a popular choice for year-round living, combining a working town centre with the seafront promenade and quieter residential streets that

connect it to Puerto Banús and the Golden Mile.

For buyers seeking a new build apartment in San Pedro de Alcántara with resort-grade amenities and a clear value trajectory in Marbella West, The Grove is one of the most considered off-plan opportunities in this part of the coast.
