

Mijas

Helvet Green – Modern Homes in Mijas Golf

Helvet Green - Ref. 24968

Price from: 335.000 € Price to: 770.000 €

Helvet Green is a private residential development of contemporary homes set at the heart of the established Mijas Golf urbanisation. Surrounded by mature greenery and renowned fairways, the setting offers open views, natural light and everyday convenience, with beaches, shops, restaurants and services just a short drive away.

The homes are designed to maximise light and space, with generous private terraces and wide windows that connect the interiors to the outdoor surroundings. Living areas are bright and well-proportioned, creating comfortable spaces for daily living as well as entertaining, while the overall design is modern and elegant.

Layouts are carefully planned to support both privacy and ease of use, with a clear focus on comfort throughout. The choice of materials and finishes reflects a calm, contemporary aesthetic, suited to year-round living or as a well-located second home on the Costa del Sol.

Residents enjoy access to a full range of communal facilities within a secure, gated environment. Landscaped gardens frame the shared areas, which include a swimming pool, gym, sauna and a dedicated social space, offering opportunities to relax, exercise and socialise in a quiet, well-maintained setting.

Helvet Green offers a lifestyle shaped by light, space and location, within one of the Costa del Sol's most established golf communities.
