

Benahavis

Madroñal Gold: Modern Luxury Villas with Panoramic Views in Benahavís

Madroñal Gold - Ref. 24596

Price from: 7.000.000 €

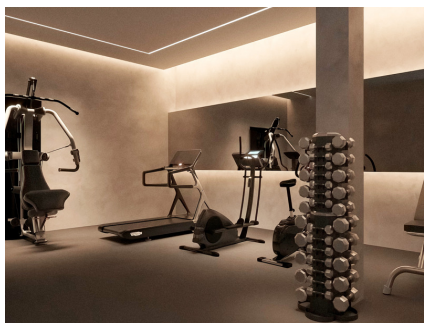

Located in the hills of El Madroñal, this new collection of contemporary villas brings a fresh architectural vision to one of Benahavís' most sought-after urbanisations. Designed to maximise natural light and far-reaching views, each home benefits from a thoughtful orientation and generous glazed façades that connect the living spaces with the surrounding landscape.

The interiors follow a modern, open-plan approach, enhanced by internal patios and floor-to-ceiling windows that frame the panoramic outlook. Across three levels, the layout balances elegant social areas with private bedroom suites, complemented by separate staff accommodation and practical service spaces such as a laundry and garage.

El Madroñal is renowned for its sense of privacy, natural beauty and elevated setting, while remaining within easy reach of key destinations. The Golden Mile, the beaches and the restaurants of Marbella centre can be reached in a short drive, offering a lifestyle that blends tranquillity with immediate access to premier amenities and services.

A forthcoming road connection to Real de La Quinta and Nueva Andalucía will further enhance accessibility and long-term value. Each villa is offered fully furnished and prepared for immediate occupation upon completion, providing a rare opportunity to purchase a new home of this calibre without the need for further works.
